

Participants

Filename: *_N58 = 58 out of 63 total participants used for ERP generation.

Excluded subjects:

34, 50, 61, 64, 67 due to low amount of trials per bin (less than 40) even after removal of bad channels.

19, 30, 32, 39, 44, 62, 63 due to poor behavioral task performance.
